## The Secret of Light

**Holding the Light**  
by Matt Presti

09/29/2014

Newsletter Issue #12

Knowledge of the light within helps one to remain centered and focused. There is a time for work and a time for play. The job is my hobby and my art is my work. Everyday sees a new challenge and the pursuit of the light goes on. Our biggest challenge it seems, is learning to access, express and above all else, to **HOLD THE LIGHT** in this world! In the illumination experience, one of the greatest realizations is the utter

and total absence of sin, evil and shame. If it seems that mankind's self-made darkness is taking over and somehow winning then it is even more

important to **HOLD THE LIGHT**! Amazing to see the veil tearing away from the shadow in real time! The underbelly of humanity is becoming fully exposed. Definitely not a pretty sight. In light of the exposure, one must ever remain aware of the see-saw that beckons mankind to ride it again and again (unbalance). Everywhere it seems, the matrix has big bright flashing neon signs inviting you to extinguish your own light; hey you over there, look at this external devil! There is an archon hiding in your closet at night; a shadow over there in the corner of your eye. The blatant fear porn whispering “pay no attention to the light of your own soul; here, have this prepackaged terror sandwich instead! The mind control program is in hyper-overdrive. It cannot go any faster nor further because it is now in total and clear violation of the one Universal law of balance. A collapse is imminent for the program. The pendulum is swinging back! It has already begun to break. Are you **HOLDING THE LIGHT**? Are you conscious of your own consciousness? The matrix has a virus and is set to self-destruct. There will be no victor. All will feel the crushing blow of the system's demise.

Those **HOLDING THE LIGHT** will shine the brightest. Knowledge will come swiftly. The still small voice within will advise. “Act and God will act” as Joan of Arc proclaimed. What is to come for humanity? For those who fear the worst, the worst is yet to come. For those **HOLDING THE LIGHT**, come what may we say! We will **HOLD THE LIGHT** no matter the matter. Despite the wicked we shall stand like a great granite wall in the face of all evil. Let the waters of ignorance break upon our fulcrum of immovable stone. For evil is of man's making. We have conquered evil in ourselves—we know how to defeat it. We stand unafraid, **HOLDING THE LIGHT**! No man will lead us. We salute no one. We know our **IMMORTALITY**! Those who stand in the light shine together as One.

Together we will weather the storm to once more drink of calmer days and peaceful times. As ever before

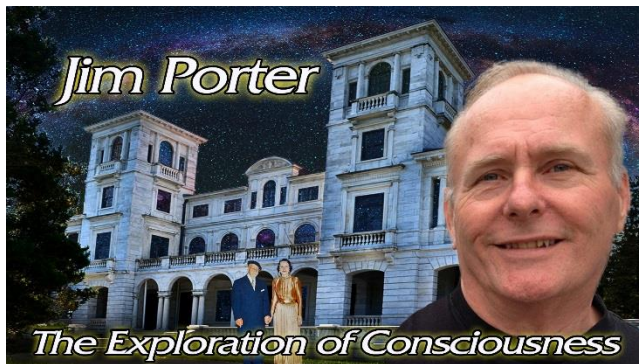

the lighthouse upon the great stone shore illumines the dark waters with the beacon of hope. May our **LIGHT** shine upon this dark man made world of fear. Let your **LIGHT** guide you and keep burning bright like the brilliance of ten thousand suns in the dark night sky. As the tower of lies topples over and turns to dust, let us rise to take our place in the sky, next to the shining Sun. As the kings of mediocrity self-destruct and self-implode, having failed to achieve their dark goal, conceived in shadow ever hiding from the light, let us blind them now with our true power. The Great Soul of Souls gives to those who **KNOW**. The power in light is right over might. Eternally, **HOLD THE LIGHT**!

May this short newsletter find you all well and in good spirits. Below you will find links as well as several recent videos by Robert Otey and myself, respectively. May they continue to lift your spirits ever upward and onward to the light within.

In the light of eternal Mind,

Matt Presti
